Have a Great Summer

Teaching: 65 hours per week for 36 weeks equals 2340 work hours.
Other jobs: 40 per week for 52 weeks equals 2080 work hours. So, I deserve the summer off.
Any other questions?

Tip of the Month

Don't forget to pull your end of the year Progress Reports including Level Completion Report, Growth Reports and School Progress.

Studies show that students can lose up to two months of progress during the summer months. Remember, your students have access to Ascend Math throughout the summer. Many schools have developed programs to ensure that these students keep up their skills and don't fall back.

Schedule Your Training

The last thing you probably want to be thinking about right now is next school year, but now is the time to schedule your training for the new school year. Get it done now and have a great relaxing summer!

Partner School of the Month

Congratulations to Ballard Hudson Middle School in Macon, GA, our Partner School of the Month. An impressive 86% of Flexible Learning Program (FLP) students at Ballard-Hudson gained one or more grade levels in math. Even better, 41% gained three grade levels and 18% gained four grade levels. Ballard-Hudson students working in the Flexible Learning Program completed 20.9 objectives each for an average of five objectives completed a week.

Ballard Hudson Middle School resides in Bibb County School District, a 2016 Gold Medal District.

Changing Schools?

Don't forget to take Ascend Math with you! Contact your local Ascend Math representative or call 877-843-0277 to make arrangements.
