Student Spotlight

Congratulations to the hard-working student at Lakeside Christian Schools in Florida who achieved the Top 10 Ascend Math Achiever status!

[#AscendStudentSpotlight](#)

Thank You

Thanks to the many of you who completed our annual survey. The best ideas for improving Ascend Math have consistently come from your input to the survey. We are happily reviewing the suggestions from this year. Be on the lookout throughout the year for product update announcements and tech tips on teacher requested improvements and updates.

Product Update

Our customer survey has provided us with great insight on how we can improve Ascend Math. Here are a couple of the improvements we've made this month.

Live Student Tracker:

You can now see which of your students are currently logged in on the Live Student Tracker. You can also see the next objective's name by hovering over the objective's number.

Student Progress Summary:

Your students' original level and growth will now appear on the Student Progress Summary. Check it out from the Progress Reports folder on your Reports tab.

Partner School of the Month

Congratulations to M.C. Williams Middle School, our January Partner School of the Month! The students at M.C. Williams have only been working in Ascend Math since November and have already completed 655 objectives. Many students have completed 1 to 2 grade levels.

Free Live Training Webinars

Don't miss out on this month's free live webinars! These webinars are designed to help school admins and teachers get the most out of their Ascend Math Implementation. Visit the [Customer Center Page](#) for upcoming live webinar topics and pre-recorded on-demand webinars.
