We would love to help the students of your friends or fellow educators!

Tip of the Month

Live Student Tracker – **Refresh** for updates

The Live Student Tracker provides real-time information for each student in a class suggesting opportunities for small group instruction and informing teacher immediately if students are struggling and in need of intervention.

The Live Student Tracker provides critical, real-time information for each student in the class including:

- Current level, unit, and objective
- Attempts at post assessment
- Time of the last post assessment attempt
- The next objective in that student's study plan
- Links to print study guides, individually and batched
- Students' last post assessment results

If the student's name is **green and bold**, they are currently logged into their Ascend Math account.

[Visit our Wiki for more information.](#)
