MARCH 2023

March

Gold Medal 2023

It's that time of year again! Your students

Math Fun

Why did Pi get its driver's license revoked?

have been working diligently in Ascend.
The Gold Medal program was created to honor their efforts as well as yours and those of your fellow educators. As a Gold Medalist you will be featured on the Ascend Math website for the entire year and will receive a plaque to commemorate your success for your classroom or assembly area.

Visit the [Gold Medal page](#) and [nominate](#) your school today!

Partner School of the Month **South Cobb High School** **Austell, GA**

What are students saying about Ascend Math?

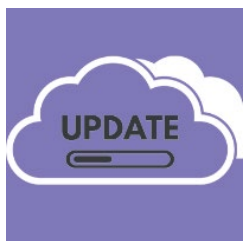

"I really like the videos where they explain the answers of the practice."

"I enjoy the games to help our minds clam down from the work problems."

"My favorite thing about ascend math is that it has improved my skills on math."

"My favorite thing about ascend math is it help me to practice a lot of math problem and also remember me the lessons already forget."

"They show you how to do the exercises."

Product updates!

Have you noticed a BIG change on the Ascend Student Home Page recently? Ascend Mountain has been updated with beautiful new vector graphics and now expands (or shrinks) to perfectly fit the size

Summer School 2023

Have you started to plan for summer school?

Bring Ascend Math into your 2023 summer school program and you may just find yourself talking about your success year-

of your device. We know our students love guiding their climber up the mountain with each objective conquered--now that experience will be as rich and immersive as possible, no matter where they're logging in from.

New Learning Pathways in Ascend Math

Just in Time Pathway: The Scope and Sequence follows the pacing of math textbooks and addresses below grade level foundational skills that support the current grade level topic taught in class.

ACT Math Pathway: Ascend Math now has an ACT Math pathway!

The Ascend team has been busy updating objective videos within the program. By the end of March, we plan to have **10** new videos launched!

So far students will experience new videos in the following objectives:

- H310 - Applications: Circumference
- G091 - Right Triangle Altitude Theorem
- 1015 - Subtracting Multi-Digit Whole Numbers
- 1031 - Properties of Division
- 1032 - Division with Remainders
- 2061 - Introduction to Fractions
- 2072 - Dividing Fractions by Fractions

round. [Visit our summer school page](#) to view our Summer School Guide, scheduling ideas, and more!

WHY CHOOSE ASCEND MATH FOR SUMMER?

- Reaches below grade level to each student's lowest skill gaps.
- Guides each through a completely individualized study plan.
- Includes award winning online instruction and interactive activities for every math skill gap.
- Students track their own progress and move at their own pace.
- Students working in Ascend Math at least two hours per day can improve one grade level in just three to four weeks.

Plus, your Ascend Customer Experience team is available during the summer to support you along the way!

Customer Survey

We hope you took time to review the [Survey FAQs](#) and we wanted to include again this month for reference.

Based on the comments shared we selected our top five survey comments for this year!

Congratulations to the following educators:

Data Reviews

It's the perfect time to see how your students have progressed! Contact us for a [Data Review session](#).

A great way to monitor student progress anytime is using the Ascend Math *Student Progress Summary* report.
